

Changes to our Super Precinct made by the 2025 round of redistricting.

Our Super Precinct still encompasses the northwest corner of Travis County to the north of Lake Travis. However it now includes precincts **280-282** (Lago Vista), **395** (Jonestown) as well as **396** and new precinct **398** extending all the way north and west to the Travis County border.

The redistricting subdivided precinct 396 to create new precinct 398 to the west of Lago Vista. All precincts remain in the same Congressional District (10) with the exception of 396 which was moved to Congressional District 11. It appears that the Republican-controlled Redistricting Committee wanted to bolster the Republican vote in Congressional District 11, and thought they could get away with it without damaging the Republican vote in Congressional District 10!
